

4th IBA Conference "Mergers and Acquisitions in Russia and CIS"

October 24-25, Russia, Moscow, The Ritz-Carlton Hotel

We are glad to invite you to **IV IBA Conference "Mergers and Acquisitions in Russia and CIS"** proved to be one of the most significant and well-known events related to M&A practice in the Russian and foreign business events market.

270 mergers and acquisitions, resulted in change/appearance of a majority owner, were registered in the Russian M&A market in 2011. The market volume reached \$17.39 bln. It is a bit more than in 2010. Foreign investors are still interested in the Russian assets, but it is more like potential, forecasting interest. Wait-and-see attitude is also associated with a highly insecure situation of some of the largest economics of the world.

Shall we wait for a considerable increase in the market volumes in 2012-2013? Which factors have the strongest effect on the development of the M&A market in Russia and the CIS nowadays? In which economic sectors is M&A activity expected to be the highest? Which amendments will be made to the corporate and antitrust legislation this year?

These issues as well as all aspects of M&A transactions shall be discussed within the frameworks of the conference programme by leading global specialists in the sphere of M&A, by major investment bankers and experts.

Who should attend? Legal advisers involved in M&A projects, corporate lawyers, in-house lawyers, heads of legal departments, economists, M&A specialists, company executives, investment bankers, investment managers interested in development of their global distribution, government officials and regulators, and all those interested in M&A in Russia and the CIS.

Cost of participation: 31 600 roubles / 800 €
for IBA members - 27 650 roubles / 700 €
