4 Ukrainian Legal Group LLC [Firm profile](#)

The Firm: Unsurprisingly, given the IP focus of head lawyer Irina Paliashvili, this firm has enjoyed particular strength in the IP field since its inception 15 years ago. The practice is traditionally Westernised in outlook, with an office in Washington DC, and a strong focus on optical-media piracy protection and industrial property. Trade marks account for a large proportion of the latter. The team has the capacity to handle litigation, although this area has been less busy in recent months.

The Lawyers: The firm's president, Irina Paliashvili, is responsible for the IP practice. Dividing her time between Kyiv, Moscow and Washington DC, she is seen as particularly adept in contentious matters.
